

EKOBO PRO

EKOBO PRO specialises in the design and manufacture of contemporary, eco-friendly tableware and serveware made from bamboo fibre.

Our products offer a safer and sustainable alternative to melamine dishware. Lighter and less fragile than traditional materials such as glass and ceramic, our collections are thoughtfully designed with the end-consumer and professional in mind.

Forward-thinking restaurants, caterers and hotels can make the environment a priority while creating beautiful and meaningful concepts that combine an innovative material, real functionality and modern design.

OUR COMPETITIVE ADVANTAGE

14 years of bamboo and eco-design expertise

FSC bamboo fibre with a smoother, non-varnished finish

Flexibility in customization of branding, color (PMS) and packaging

Production capacity : 250 000 units per month

Our factory partner is BSCI Compliant

GREEN ALTERNATIVE

We offer an alternative to traditional plastic, disposable or fragile dish and serveware.

To extend the life of our products (a sustainable practice), we've combined biodegradable bamboo fibre, a highly-renewable natural resource, with a 100% food-grade melamine binder.

Our products comply to all food safety standards (FDA, LFGB & REACH).

Free of BPA, PVC, Phthalates, Lead, Cadmium and Mercury.

Dishwasher safe (short cycle)

Ideal for daily use, indoors and outdoors

Suitable for hot and cold foods

No Microwave

VERSITILITY IN STYLE

Available in a variety of forms, our wide palette of pop, neutral and sultry colors offers endless options for an array of concepts.

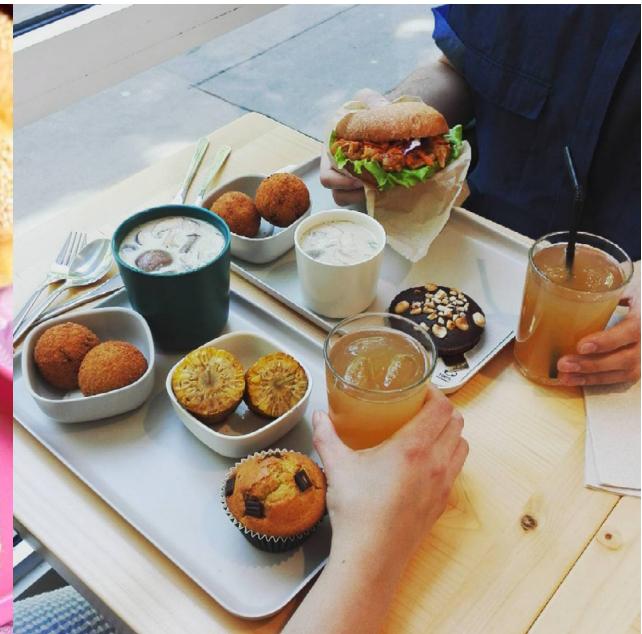

--

Mix and match to make graphic statements in contrasting colors or subdued tone-on-tone combinations.
